

NEW YEAR MESSAGE

With every New Year, we get greater challenges and opportunities to reinvigorate ourselves to be the best amongst the best service provider. Last year we had imbibed many values and improved our work ethos by bringing in more transparency in the conduct of official business that creates new values as we grow with our customers.

The year also witnessed improvements in the overall working conditions with more cleanliness in line with 'Swacchh Bharat Abhiyaan'. Basic amenities were provided within the limited resources due to adoption of austerity measures.

Knowing our clients and learning to coexist harmoniously with the changing times by building mutually beneficial relationships is the need of the hour for providing cost effective defence finance management, audit and accounting services.

Our focus will be to gear up our machinery for providing more value based services to our customers and to know them better would be our basic goal apart from comprehensively strengthening our internal audit mechanism through error free and enhance customer satisfaction in delivery of service .

I sincerely wish all of you and your family a prosperous and Happy New Year 2018.
